

# Driven To Distance: A Sensory Journey Through Autism

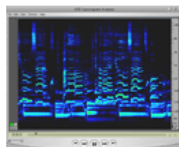

To All Whose Lives are Touched by Autism Spectrum Disorders,

***Driven to Distance*** is an insightful song with lyrics written by my dear friend and colleague *Dr. Valerie Scaramella-Nowinski*, composition by Chad W. Konchak. Advanced Brain Technologies had the honor to be involved with this heartfelt gift to those whose lives are touched by autism.

Please [listen](#) to and [read the lyrics](#) to ***Driven to Distance*** and share this treasure with others if it resonates with you as it does me.

May all our children find "Peaceful Rhythms" in each day.

**Alex Doman**  
Founder & CEO  
Advanced Brain Technologies
